

# INTERNATIONAL SNOW LEOPARD WEEK

## SPOT THE SIMILARITIES

During your next visit to Seneca Park Zoo, try to spot animals that share each of the listed traits with snow leopards; for a challenge, only use each animal once. There's also a special spot to list something new you learned about snow leopards.

MAMMAL

LIVES IN A  
COLD CLIMATE

NATIVE  
TO ASIA

CARNIVORE

VULNERABLE  
STATUS

LIVES IN THE  
MOUNTAINS

COLORATION  
FOR  
CAMOUFLAGE
